Tolterodine Extended-Release capsule

What is this medicine?

TOLTERODINE is used to treat overactive bladder. This medicine reduces the amount of bathroom visits. It may also help to control wetting accidents.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- difficulty passing urine
- glaucoma
- intestinal obstruction
- kidney or liver disease
- an unusual or allergic reaction to tolterodine, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. Take your doses at regular intervals. Do not take your medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.
