Cyproheptadine tablet

What is this medicine?

CYPROHEPTADINE is a histamine blocker. This medicine is used to treat allergy symptoms. It can help stop runny nose, watery eyes, and itchy rash.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- any chronic disease
- glaucoma
- prostate disease
- ulcers or other stomach problems
- an unusual or allergic reaction to cyproheptadine, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. Take your doses at regular intervals. Do not take your medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for children as young as 2 years of age for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine, contact a poison control center or emergency room at once.
