Now it seems ready to rise again, having won 2.8% to \$ 160.29 at the Primararket Trading Friday, even as and in future almost nothing. I love board games! I grew up playing Monopoly and other strategy games, and love it! WEA has already spoken before as video games can teach personal finances skills for children. But cards also can teach children about the basic investment concepts, money management, and more. And with a push to stop the TV and the iPad vita, the best gift to give your children than a family board game can play together? Here is our list of top five board games that can teach you about the investment: 1. Monopoly Monopoly is one of the best board games to teach you the children about money and investments. Why? Because the goal of the game is to invest in immobile, earn cash flow, and have more money at the end. How do you do this? By investing at the right time, and having enough money to be able to do so. You can also update and invest in your own recovery to develop it and make it worth more. This game also has aspects of planning and marketing of a you have to plan what to do with your money, and you have the opportunity for commercial agreements and do well. This is a great way to teach children about the basic notion of money management. Check out large promotions in Monopoly at Amazon.com -> A 2. The Game of Life The game of life is another classic board game that teaches children and topical money families of money. Similar to monpolio, except that you choose different paths based on simulated real choices such as career and family. The game really teaches great money skills, such as importance career and income. He also teaches children because it is important to start investing early, and how the composite interest works. Check out the game of human life at Amazon.com -> 3. Million Dollar Challenge Million Dollar Challenge is just a true tray game focused on this list. But it is not at the top of the list because, honestly, it is a little more difficult to learn than any of the Games. The reason this game focuses specifically on the investment - the first phase of the game focuses on learning how to change, stop losses and more. The second phase of the game enters the topics even more advanced to invest. The goal, as the game entitled, is reaching \$ 1,000,000 before someone does. This is a very rare game, but you can still find sometimes at Amazon.com. Check out the challenge of millions of dollars at Amazon.com -> 4. Box Stream 101 Flow Box 101 is actually a board game created by Robert Kiyosaki. Love or hate, he teaches the fundamentals of money very well. This game is a board game and learning tool. It has more teaching material than any other board game in this list. The goal of the game is not just to play, but to learn techniques solid money management. This game will teach players the Básico to invest, income and expenses, and even go into advanced investment techniques. This game also has a free online version, children can play here. If you want the version of the board game, check out the box flow 101 at Amazon.com -> 5. Puerto Rico Puerto Rico is probably the least known board game on this list, but it's a lot of fun and a great way of teaching children about money. The game is all about being capitalist on the island of Puerto Rico. Your goal is to build your company before the island is without workers, the capital becomes civilized, or the market has prepared for the total capacity. MÀ © dio takes about an hour and a half time to play. This game will teach your children about cash management and also on the investment. importance. It will also teach your children about managing changes and how investments can be positive or negatively affected by changes in the out-of-control market. Check Puerto Rico at Amazon.com -> BÀNUS: Catan settlers of catan settlers is a board game where each player is a settlement that is trying to build their exploits while developing resources and negotiations. This is a great money management game that has some aspects of built-in investment. We included in the list because this game continues to increase in popularity every year. The goal of the game is to reach 10 points of victory developing your land using resource cards. Players can also negotiate to get the features they need. It is also unexpected events, as a thief, which could prevent production on the spot, land. Check out the Catan settlers at Amazon.com -> Robert Farrington is the specialist in Millennial's Dance of Empreter of Millennial, Amenia and AMEMA © rica, "and the founder of the college investor, a Personal Finance Website dedicated to helping the Milenares escape dwarf student to start investing and building wealth for the future.
