I was all 14 when Elizabeth summoned the mother and I in Russia to marry Peter III. Then I was just a little slip by a girl! My entire slut consisted of three old clothes, a dozen chemies, a pair of socks and some handkerchiefs. See, the mother had spent all the money that the Imperatrice sent me to her wardrobe. That mom for you. Shortly after my marriage, Elizabeth sent her back without many ceremonies to be a immership imbued and a clumsy Prussian secret agent. I never have seen it for the rest of my life. This is my husband. As you can see, he is not much, but it is still the great survivor's nephew, and this is the one I married --- The future tsar of all Russia. Peter was a sick child who preferred to play with his soldiers toys on our marital bed that with me. He was not allowed to play with them during the day, so they were hidden under the bed. As soon as we were both in bed, Madame Krause, our nanny/supervisor, would have entered and pulled the toys soldiers. I couldn't even move in bed --- They were so many! Peter played with them until midnight, and every time someone knocked on the door to check us, we had to climb to hide the toys under the blanket. It was farcical: a couple just married constantly on guard so as not to be captured to play with toys. But the empress Elisabetta was not amused when, years in our wedding, we had not produced the heir that expected from us. The fact is that my husband has never touched me for the first nine years of our wedding. There were many speculations on the reason why. He told me openly that he was in love with another woman --- One of my women in irtlA irtlA .atammusnocni odom ossets olla essof enoizaler al ehc avarbmes am --- Which was simply too physically and mentally immature a child to father. Some of our doctors learned also diagnosed him with phimosis (. Sergei Saltykov, the first of my twelve lovers (Oh, how beautiful it was!), He convinced him to have an operation to correct the condition. You know, once Sergei was involved with me, he anxiously anxious to him. What if I had been pregnant? But if Pietro had been known to be able to consume our wedding, who could say that Sergei was responsible? It was discovered that my paramour was unnecessarily worried: the empress herself had instructed her servants to provide me with a more reliable male for the ceremony of an heir --- And Sergei was one of those considered! However, soon I was pregnant, with consequent Paul, the long -awaited Romanov heir. Many people said they saw a marked similarity between my son and my husband, not only in the looks, but also in their common hobby of playing soldier. But every time I wanted to swallow my son, I always said Sergei Saltykov was his father. We never got along, Paul and I, perhaps because I rarely saw him rarely during his childhood. Empress Elizabeth slammed him immediately after him, he suffered him with frustrated maternal love and threw me aside. When my first nephew was born, I intended to fully bypass Paul and to do it Tsar Alexander I, but it was not to happen. After the empress pass the road, Pietro for a short time came to be Tsar, before he was forgively deposited by the army, who instead made me impertrix. Pietro Idolatra Federico II, the Prussian king who was at war with us, and wanted to make peace with him. The Russian patriotic people hated this radical change in foreign policy and threw their lot with me instead. My boyfriend oi oi e ,opod ocop otaivni etnemasoiretsim otats "Ã reteP ehc otarucissa "Ã is olletarf ous e ,)?gnihsad "Ã non --otisoporp a ,ottos iul "A otseug(volrO yrogirG to gloriously rally the Russian people on horseback wearing the uniform of a colonel of the Preobrazhensky Regiment. Boyfriend#3 The reign of Catherine II officially begins! believed in the strong Russian motherland and added many territories, 520,000 km2 in all, to Peter the Great¢AÂs empire. When he was only able to gain a toehold in the south, I completed his conquest by defeating the ailing Turks (and gaining a warm water port, so crucial for Russia, in the process). The former Ottoman territories around the Black Sea, the Ukraine, and Crimea (which the love of my life, Grigory Potemkin, administered as my Viceroy) became Russian possessions. I also partitioned Poland, after putting my second lover, Stanislaus Poniatowski, on the throne of that country (poor sweetie, he actually didn¢ÃÂÂt want to be king, imagine that!). Boyfriend#2 On the home front, I tried my best to drag Russia into the modern age. Eighteen years of boredom and loneliness as an unhappily married woman gave me the opportunity to read many books. I imbibed the best ideas of the Aufklarung through the writings of M. Montesquieu (whose ideas I pillaged for the Nakaz, the new legal code that I envisioned for Russia), Mr. John Locke (what is more important than our children¢ÃÂs education, especially our girls?) and Signore Beccaria (torture is barbaric!). I corresponded with the best minds in France, including M. Voltaire (he called me ¢ÃÂÂThe Star of the North¢Ã --- such a sweet man!) and M. Diderot, whose work on his Encyclopedie I supported, and whose library I purchased --- on the condition that he got to keep it during his lifetime as I thought that it would be so cruel to separate a scholar from his books. M. Diderot actually visited me in St. Petersburg to express his gratitude, the poor sickly man. Unfortunately, many of these progressive ideas proved to be far too advanced for the country, and I had to reassert my absolute powers as the Aubet text or tuccessy de: Queé Quan) Questions Quanu Quan) Quan) Quan) Quan) How does the Trass?
