As a writer at the Ministry of Truth, he begins keeping a diary, which is not illegal but punishable by death. Since every room has a telescreen that can transmit and receive sounds and images, Winston must be careful not to be discovered. However, he also writes to stay sane due to the Party's practice of controlling reality through doublethink, making its subjects deny their own senses. One day, a dark-haired girl, Julia, gives him a note saying "I love you," and Winston begins an illicit love affair with her, meeting in secret locations. Their lovers are led into a trap by O'Brien, who pretends to be a counterrevolutionary and lends them a book supposedly written by Emmanuel Goldstein. However, Mr. Charrington, the proprietor of their secret hiding place, is actually a member of the Thought Police. Winston and Julia are arrested, tortured, and brainwashed by O'Brien in the Ministry of Love. Enduring in servitude, they uphold the broken ideals of their Party allegiance.
