By giving the balloon these cubic dimensions, and filling it with hydrogen gas, instead of common air--the former being fourteen and a half times lighter and weighing therefore only two hundred and seventy-six pounds--a difference of three thousand seven hundred and twenty-four pounds in equilibrium is produced; and it is this difference between the weight of the gas contained in the balloon and the weight of the surrounding atmosphere that constitutes the ascensional force of the former. Two or three of us had been resting ourselves among the tranquil and beautiful scenery of the island of Ischia, eighteen miles out in the harbor, for two days; we called it "resting," but I do not remember now what the resting consisted of, for when we got back to Naples we had not slept for forty-eight hours. We have seen how his imprudence in following Rosa into the garden had unmasked him in the eyes of the young damsel, and how the instinctive fears of Cornelius had put the two lovers on their guard against him. When Muda Saffir turned from the two Dyaks who had brought him news of the treasure he hastened to the long-house and arousing the chief of the tribe who domiciled there explained that the rajah have at once two war prahus fully manned. But not to crowd this part with an account of the lesser part of the rogueries with which they plagued them continually, night and day, it forced the two men to such a desperation that they resolved to fight them all three, the first time they soon fell into a wasteful foolish way of living, so that they could not return home again. It is a notched stick of a peculiar form, some two feet in length which is perpendicularly inserted into the starboard gunwale near the bow, for the purpose of furnishing a rest for the wooden extremity of the harpoon, whose other naked, barbed end slopingly projects from the prow. In treating this subject, two classes of facts, to a large extent fundamentally different, have generally been confounded together; namely, the sterility of two species when first crossed, and the sterility of the hybrids produced from them. Here, now, are two great whales, laying their heads together our own. The wall which encompassed it is two feet and a half high, and at least eleven inches broad, so that a coach and horses may be driven very safely round it; and it is flanked with strong towers at ten feet distance. And Simon Nishikanta tore himself away from his everlasting painting of all colour-delicacies of sea and sky such as are painted by seminary maidens, to be helped and hoisted up the ratlines of the mizzen rigging, the huge bulk of him, by two grinning, slim-waisted sailors, until they lashed him squarely on the crosstrees and left him to stare with eyes of golden desire, across the sun-washed sea through the finest pair of unredeemed binoculars that had ever been pledged in his pawnshops. Some lanes cut -- as steps cut the two great straight lines of the port and the street. 1. Two (numeral): The cardinal number equal to the sum of one and one. 2.
