Merging PDF Files Online or on Your Computer: Easy and Free MethodsTo combine PDF files together, you can use Adobe Acrobat's "Combine Files" feature or opt for free online merge tools like CutePDF. Here's a step-by-step guide:1. Open Adobe Acrobat and click "Tools", then select the "Combine Files" option.2. Click "Add Files", navigate to the location of your PDFs, select multiple files by pressing Ctrl+Shift (Windows) or Command+Shift (Mac), and click "Open".3. Rearrange the PDFs by clicking and dragging them in the thumbnail list.4. Once you're satisfied with the order, click "Combine" to merge the PDFs into one file.5. Save the merged PDF using the "Save as" option.Alternatively, if Adobe Acrobat doesn't have a "save as" option, use the edit menu to save your changes.I tried to use FoxUtils to merge two PDF files but it cost $1.95 per file. It looks like a scam to me because I only received a blank form and my payment was not acknowledged. The website is supposed to be free, but there's a link to download an app that costs monthly rental. I'm currently disputing the charge on my credit card.Thank you for reaching out to us directly at billing@pdfaid.com or +44 808 501 2541, we are more than happy to assist you further.Best,James, PDFAid Billing Supportbilling@pdfaid.com or +44 808 501 2541Hello Kevin,Thank you so much for your feedback! Your file is protected with industry-standard TLS encryption, so you can merge PDFs into a single file confidently.B Cloud-Based ProcessingOur online PDF merger is cloud-based, saving your devices resources and giving you the freedom to merge PDFs from anywhere, anytime.Combining PDF Files in Windows 11: A Step-by-Step GuideOpen Microsoft Edge browser on your Windows 11 computer. Microsoft Edge has a built-in PDF viewer that lets you open multiple PDFs. Drag and drop the first PDF file into the Microsoft Edge window. This will open the PDF file in the browser, allowing you to preview its contents. Drag and drop the second PDF file into the same Microsoft Edge window, next to the first PDF. Opening multiple PDFs in one window sets the stage for combining them. Press Ctrl + P or click the three dots in the top-right corner and select "Print." This will open the print dialog box where you can select the printer and settings. In the printer selection dropdown, choose "Microsoft Print to PDF." This option lets you save the combined content as a new PDF file. Click the "Print" button, name your new PDF file, and save it to your desired location. Saving this new file combines the two PDFs into a single document.
