paraphrased text hereUsing Seequent's Solutions: A Flexible Approach for Project Management and Data AnalysisLooking forward to using Seequants solutions, you need an initial internet connection when you run the software for the first time. However, it is possible to work offline for several days without an internet connection. When selecting the number of days you wish to work offline, you can do so while signing in with the software.How will I be charged? Leapfrog allows users to only pay per use, providing flexibility and avoiding upfront costs. The pricing is as follows: \$156 USD per day for Leapfrog Geo and \$267 USD per day for Leapfrog Energy. There is no limit on the number of users who can access the software simultaneously.Consultant access lasts 24 hours, beginning when each user runs Leapfrog continuously for more than 10 minutes. We suggest checking out your resources one day at a time unless you are going offline and do not release your seat when closing Leapfrog.If you check out another seat in the same day, you will only be charged once for the 24hr period. However, if you use the "check out days" feature to work offline, you will only be charged for the days that you accessed your seat. Consultant access is subject to an initial account setup fee for new accounts.Pricing is capped at 15 days or \$2,340 USD for Leapfrog Geo and \$4,005 USD for Leapfrog Energy per calendar month. Additional extensions are available and priced separately.You can use Leapfrog with no upfront costs when you first start using it, but there are some additional charges when you sign in. You can select how long to stay offline, and the software will keep track of your usage.When you come back online, you'll be charged only for the days that you were offline. There's no limit on how many users can use the software at once. Your subscription lasts 24 hours from when each user runs Leapfrog for more than ten minutes. We suggest checking out a day at a time unless you're going offline. If you release your seat and check in to another, you'll only be charged one time for that 24-hour period.If you want to work offline, you can do so for the days you've booked, but make sure you come back online before the end of the month or you will get a bill. The cost is \$156 per day for Leapfrog Geo and \$267 per day for Leapfrog Energy. If you use it for more than 15 days in a month, it's \$2340 for Leapfrog Geo and \$4005 for Leapfrog Energy.There are some extra charges if you want to extend your stay or work offline longer than that.

Leapfrog geo cost. How much is a leapfrog. Leapfrog geo pricing. Leapfrog geo. Leapfrog cost.
