There can be other trading options too, depending on the exchange. In regards to purchasing, taxing or outright banning it, changes are still being made. Instant buy An instant buy is typically done with a credit card, but can also be done with fiat or crypto already in your exchange account. Once the funds arrive, you can then buy Bitcoin. It should be required for logins and withdrawals at a minimum. It is not uncommon for Bitcoin to lose more than 10% of its value in a single day. ATMs are commonly located inside of convenience stores, shops, restaurants, malls or airports. However, iteÄÄÄs wise to fully understand what bitcoins are all about, including learning the bitcoin mining system and knowing what drives bitcoin prices. If you're just buying Bitcoin, choose an exchange that gives you the lowest fees and best security. Many consider it bad practice to keep coins on an exchange as this means you are trusting them to a third party. However, you might end up waiting a few days for the funds to arrive, depending on the bank and the exchange. Getting started takes 20 seconds. Some of the most popular exchanges that accept VND are Binance Cryptocurrency Exchange, AAX Cryptocurrency Exchange and eToro Cryptocurrency Trading. Step 1. The other option is to send your Bitcoin to an external wallet where you hold the keys. For the most secure experience, consider purchasing a hardware wallet, which is a small USB device that keeps your private keys offline at all times, adding an extra layer of security. As of December 2018, the average price of a bitcoin is \$3,500. There's a widespread misconception that all Bitcoin transactions are anonymous. Some exchanges share their security practices publicly, while others prefer to keep them confidential. Check out Finder's guide on how to buy Bitcoin with a credit card to figure out the details that work for you. Keep Your Bitcoins in Your WalletAfter making the purchase, the bitcoins automatically transfer to your wallet. Simply type in how much you want to spend in VND, and let the exchange calculate the rest. Limit orders have lower fees than market orders. You will then need to verify your identity and address, which is part of a process called Know Your Customer (KYC), which is a legal requirement for most exchanges in Vietnam. Frequent trader: If you plan to trade Bitcoin frequently, then leaving it on the exchange is the easiest option. No! For complete custody of your Bitcoin or other cryptocurrencies it is recommended to store them in a hardware wallet as it keeps private keys safe and entirely offline. The 2 most common methods in Vietnam are instant buy and the spot market. Casual investor: If you are a casual investor and more concerned with speculating on the price of Bitcoin than taking advantage of its utility, then keeping your Bitcoin on an exchange might be the easiest way for you to manage your investment. If you plan to keep your coins on an exchange, make sure to do your own research. If you're planning to diversify your portfolio, look for an exchange with your other assets of interest. We've boiled down the process of buying Bitcoin into 4 steps. HereeÄÄÄs a simple step-by-step guide to buying bitcoins. But there are several benefits to moving your coins off an exchange. Spot market The spot market is often found under a "Trade" or "Spot" heading. If you plan on trading other cryptocurrencies, then find a platform that fits those needs. Finder, or the author, may have holdings in the cryptocurrencies discussed. All of these exchanges are considered relatively beginner friendly and offer deposit methods in a variety of methods. Security: Every cryptocurrency exchange is different, and so is its security.
