Kiss brush-on gel nail kit step by step instructions

If you want to take your nail game to the next level without going to a salon, you're in luck! We're going to break down how to use the Kiss Brush On Gel Nail Kit. This at-home gel nail system makes it easy and affordable to get salon-quality nails. To start, remove any old polish, shape your nails, buff them lightly, and push back your cuticles. Apply a thin layer of base coat from the kit, making sure not to touch your skin. Cure the nails under a UV/LED lamp according to the instructions. Then, apply a layer of gel polish using the brush provided in the kit, curing it again under the lamp. For best results, repeat this step for a more intense color. Finally, add top coat and cure it according to the instructions to get that beautiful shine and protection from chipping. Here's what you can expect from the Kiss Brush-On Gel Nail Kit:- **Brush-On Gel****: Easy-to-use gel that adheres perfectly to your natural nails.- **Nail Application Tools****: Essential tools for prepping, applying, and perfecting your nails.- **Step-by-Step Instructions****: Clear guidelines to ensure even beginners can achieve salon-worthy results.- **Nail Tips****: Perfect for creating beautiful shapes and lengths to suit your personal aesthetic. Step 1: Preparation Prep your nails by gently pushing back cuticles, buffing the nail surface to create a smooth canvas for the gel. Step 2: Application Dip the brush into the gel, apply a thin layer to your nail, and use smooth strokes to cover the entire nail, ensuring an even distribution. Step 3: Curing Unlike traditional gel nails, this kit doesn't require UV light. Allow the gel to air dry for a completely cured finish. Step 4: Finish Once dry, finish with a top coat for added shine and durability. Voila! Your nails are now a statement piece. **Experiment****: Mix and match colors for a unique, personalized look or create fun nail art patterns for special occasions. **Hydration is Key****: Keep your hands and cuticles hydrated to maintain nail health. **Learn from Experts****: Watch YouTube tutorials or TikTok videos featuring the Kiss Brush-On Gel Nail Kit to elevate your skills. **Nail File Set****: For shaping and buffering your nails before you apply the gel. **Cuticle Oil****: Keeps your cuticles healthy and hydrated, perfect for maintaining that freshly manicured look. **Nail Art Accessories****: Invest in stickers, gems, and tape to take your nail designs to the next level. The Kiss Brush-On Gel Nail Kit is more than just a nail product; it's your gateway to endless creativity and self-expression. With its user-friendly design and fabulous results, nothing stands between you and enviable nails. up your three bottles in order to as needed. Avoiding skin and cuticle area, apply an even layer of Brush-on Gel to one nail as you would polish. Next, over WET GEL, use brush from Brush Cleaner and dip into Activator. Apply a thin coat of Activator over WET GEL as you would apply polish. Wipe brush on paper towel and return to Brush Cleaner to keep clean and soft. REPEAT these steps on all ten nails. A SECOND LAYER of Brush-on Gel and Brush-on Activator is now applied repeating step 2 above. For an opaquer look, apply a third layer of the Gel/Activator combination. After all ten nails are completed, finish with a thin layer of Brush-on Gel on all ten nails as you would top coat. Brush-On Gel products will self-level and set to a hard, smooth, and shiny surface in under 5 minutes. Enjoy your Nude French manicure as is or finish with your own nail polish for a different color. Tip: You can use the Gel/Activator combination on toenails for a fast, fresh pedicure. FILL-IN: Remove polish with non-acetone remover. Gently buff area of nail growth where overlay meets cuticle. Apply a small amount of Brush-On Gel to base of nail. Apply Brush-on Activator only to area where Brush-on Gel was applied. Repeat steps 3 and 4 from "Gel Application";. REMOVAL: Do not force or pull off nails. Trim off as much artificial tip as possible. For quick, easy removal, use KISS Glue OFF, or soak nails in acetone-based polish remover until soft. Wipe off softened overlay and glue; repeat process as necessary. 1.Lookin forward to seein everyone at the meeting tomorow and discussin our strategies. 2.In the kit you need to select the right nail tip siz for each fingern. 3.The Kiss Brush-On Gel Nail Kit comes with 48 Easy-Apply Tips including 24 Natural Tips and 24 French Tips. 4.If your nails are between sizes it is better to go with a bigger size and then file the edges so that they fit customly. 5.Lay out the selected tips in the order of your fingers so that you can keep your application organized. 6.Now its time to trim and fil your nails to get desided shape and length. 7.If you need to you can fil the sides of the tips so that they fit perfectly on your nails. 8.Next use a nail fil to gently buff the surface of your nails so that it can absorbe the gel better. 9.Be careful not to over-buff your nails or it can damage your natural nail surface. 10.After thats you need to clean your nails with acetone polish remover so that the gel will stay strong and not fall off. 11.Now its time to start the application of the Kiss Brush-On Gel Nail Kit. 12.First you need to protect your work surface with paper towels or a rag or newspaper. 13.Then you push back your cuticles and trim and fil your nails as needed. 14.Next select the right nail tip siz for each fingern and lay them out in the order of your fingers so that it is easier to apply. 15.After thats you need to apply the brush-on gel by holdin the nail tip with the Easy-Apply Tab and applying the Brush-On Gel to the back well area of the nail tip. 16.Then slowly lower the tip onto your natural nail and hold it firm until it sets. 17.Repeat this proces for each nail so that they are all applaid evenly. 18.Next you need to blend the nail tip with your natural nail by using the brush from the Brush Cleaner and applyin a thin coat of Activator over the wet gel. 19.Finally repeat the proces by applying a second layer of Brush-On Gel and Brush-On Activator to get a long-lasting finish. Use the manicure stick to push back your cuticles, then trim and file your nails according to your desired shape and length. Be careful not to over-file the natural nail surface. Lightly buff the nail surface to remove any shine and create a grip for the polish. Apply an even layer of Brush-on Gel to one nail, avoiding the skin and cuticle area. Treat this application as if you were applying regular nail polish. Ensure that you only apply the Brush-on Gel to the area where the nail tip adheres to your natural nail. Next, dip the brush from the Brush Cleaner into the Activator solution and apply a thin coat of the Activator over the wet Brush-on Gel. Repeat this process for all ten nails. For added durability and an opaquer look, you can apply additional layers of both the Brush-on Gel and the Brush-on Activator. Follow the same steps as before, ensuring that each layer is thin and even. To finish, apply a thin layer of Brush-on Gel to all ten nails as you would a top coat. The Kiss Brush-On Gel Nail Kit allows you to create salon-quality nails from home. Before startin applyin the gel, make sure to prep your nails by removin old polish and excess oils with nail polish remover. Next, shape your nails to your desired length using a file and smooth out any rough edges. You can then cut or file the tips of your nails to customize them to "short" length, as the kit comes with these types of tips. However, don't forget not to overlap the tips onto your skin. Now it's time to apply gel polish! You can choose from natural and nude-coloured tips for a French manicure look or add colour gel or nail polish for a custom look. Apply base coat first, then 1-2 layers of your chosen gel polish colour, curing each layer under UV or LED lamp according to the instructions. Finally, seal with clear top coat to protect the colour and add shine. Your very own customized gel manicure is ready! Some users have reported that their nail tips last up to 12 days, but removal is easy using acetone or Kiss Glue Off product. To prep for application, push back cuticles, trim, file, and buff your natural nail surface. When applying the Brush-On Gel, select the correct-sized tip for each finger and apply gel to the back of each tip. Slowly lower each tip onto your natural nail and hold firmly until set. Repeat this process for all nails. The Kiss Brush On Gel Nail Kit is a great option if you're lookin for a quick and effective way to achieve salon-quality nails from home. It simplifies the process and delivers stunning results that can last for weeks. Make sure you have the following items at hand: Kiss Brush On Gel Nail Kit, nail file, cotton balls or pads, and your favourite nail polish (if desired). Shake the gel bottle before opening it and apply a thin layer to each nail using the brush. Make sure to seal the edges to prevent chipping! If your kit comes with a UV light, cure your nails according to the instructions. Each layer typically needs about 30 to 60 seconds under the light for a perfect finish. 3 sets of press-on nails & get 1 free; buy 5, get 5 free. Use codes 4YOU or 5FREE.
