Games Candy Crush Jelly Saga Discussions We're aware of an issue with email notifications. Tap here for more info Been on this level for over a week now, don't see how it can be completed, even if Larry wasn't ripping you off during the game play.When you collect enough candies to make a monkling, it drops to the floor, and for all appearances, you need to make several of them so that one will fall below the rope when it tumbles down the stack.But seeing as it takes at least 8-10 moves to collect enough candies to make one, the best you can get is 4.And to make things worse, the more you clear the board, the more the board favors Larry with his blue candies over you and your orange ones, matter of fact, I managed to clear the board of all the cupcakes and had NO orange candies once. Bring down all ingredients and reach 20000 points to complete the levelYou have only 22 moves.2 IngredientsThis level has medium difficulty. For this level try to play from left or right columns where you have more candies available to play and make special candy. Try to break the keys by using striped candy combo like combine striped candy with colorbomb or wrapped candy to break the keys and get ingredients. Take ingredients to the center to take them to the bottom of the board.Candy Crush Level 974 Walkthrough VideoCandy Crush Mom> Candy Crush All Levels> Tips and Walkthrough: Candy Crush Level 974 Objectives: Got more Monklings than the boss around the board.Moves: 19Difficulty: Medium To collect Monkling you have to break the orange candy around the orange border. While some tips are more useful than others, its always good to be reminded of the basics.Our most important tip of all would be to take your time because there is no time limit. Taking your time will allow you to roughly calculate where candies will end up after a match which in turn will help you make better decisions.Match candies at the location thatll shift the largest amount of candies. Most of the time this will be at the bottom of the playing field. Doing this will shift the largest amount of candies. This in turn will hopefully start a chain reaction that will create new opportunities to make special candies.Keep your eyes open for opportunities to make special candies. With candies of four colors on the playing field making special candies will be easy. With each additional candy color on the playing field it will get increasingly harder to match candies and make special candies.This tip is a follow-up on our second tip. While your attention is at the bottom of the playing field dont ignore making special candies at the top of the playing field. Pause after every move and glance at the entire playing field to see whether you can make special candies.Most of the time youll want to clear blockers as quickly as you can. Clearing blockers will increase the space in which you can match candies, making it increasingly easier to make special candies.If you have a tip for Candy Crush Saga level 974 we welcome you to leave a comment below!
