Disque *#06# para obter o IMEI Antes de tentar qualquer outra coisa, voc pode tentar simplesmente discar *#06# no seu Samsung (ou qualquer telefone celular), isso deve recuperar o nmero IMEI. Aguarde um momento e o IMEI aparecer na tela. Este pequeno truque de discagem numrica tambm funciona para recuperar o IMEI em outros telefones celulares, no apenas no Samsung Checked today:133,782Checked this month:6,609,402Checked total:353,206,331TAC in database:279,576 Samsung IMEI Check Free Samsung IMEI Checker| Check Samsung Model, Warranty, Original, Blacklist, Country, Carrier, Produciton, SimLock Check. All Info about your Samsung phone device | Samsung IMEI lookup To get IMEI number, dial *#06# on your phoneServices provided by our IMEI.net website are based on the largest TAC database in the whole world. IMEI Check is the best feature that has been created for the GSM industry. The IMEI lookup gives you a possibility to find out the information about GSM devices, such as Warranty Status, Blacklist Check, SIMLOCK Blockade, iPhone Unlock, iCloud Status, Network/Country/Carrier, and even full device specification for the high street brands like Apple, Samsung, Huawei, Xiaomi, and more. The market for second hand iPhones is booming. But before you handover any money, make sure the device is worth your hard-earned cash. Our IMEI check works in under 2 hours to provide all you need to know about a used Apple iPhone. Find out when it was manufactured, see if its in warranty, ID its network, check to see if its Find My iPhone activation lock is enabled, and assess its simlock status. With all the important areas ticked off, you can invest with your eyes wide open.IMEI iPhoneSamsung CheckAbout to buy a second-hand Samsung device? First check its DNA. With our IMEI check you can see if the used device is locked to a specific network like T-Mobile. This could determine if the phone is usable or not and will play an important part in your decision to continue with your purchase. You can also find out if its still in warranty and get accurate manufacturing information.IMEI Check SamsungDevice Replacement CheckIts impossible to tell simply by looking at a used phone what its history is. It may look brand new but the reality could be something quite different. Using your IMEI you can check to see if the phone was purchased new, is a refurbished model, or is a replacement device supplied by the manufacturer. Of course, the device performance and reliability of refurbished and replacement devices may be equivalent to brand new devices. But it may impact insurance costs and resale value.Device Replacement CheckCarrier CheckIf youve bought or are planning on buying a second-hand smartphone, the network or carrier its registered to matters. If its a network youre already on, you may be able to put the SIM card you currently have into the SIM card slot and start using the device. If its a different carrier, you may have to get your phone unlocked to use your existing SIM card. Or consider moving over to another network. Running an IMEI unlock check will clarify the situation.Carrier Check by IMEIBlacklist CheckNot all phones are squeaky clean. Some have a dark and murky past. The problem is that if there are secrets, theyll be well-hidden behind-the-scenes. An IMEI blacklist check digs deep into a phones history to see if its been blocked by local or international providers due to unpaid bills, theft or loss. With a blacklisted phone you might not be able to make calls, send text messages or connect to the internet. Get peace of mind before you buy a used phone by checking its status first.Blacklist IMEI CheckSprint Status CheckThinking of buying a second-hand Sprint mobile phone? Start off by using the IMEI number to run a Sprint status check. Find out before you buy if the device is clean or if its been blacklisted due to unpaid bills or being reported as a stolen or lost phone. You can also get a warranty update which tells you the warranty date, how long it's valid for and in what country.Sprint Status Check Plan on buying a second hand Samsung phone? Make sure to check its IMEI first to ensure its not blacklisted, SIM locked, Google FRP locked, reported as lost, or stolen. You can easily do that with the help of an Samsung IMEI checker service.Unlockboot offers a free Samsung IMEI check service that offers tons of useful information about your Samsung device. You just need to provide us with your SN or IMEI number. Our tool will show you the following details: warranty status, model name, model number, purchase date, estimated device age, original network/carrier, and more. 1 Find your SN or IMEI number and put it in the relevant field. You can get it by dialing *#06# or going to the settings about phone section of your Samsung phone.2 After finding and entering the IMEI number of your Samsung phone, please complete the CAPTCHA verification and click on the Check button to start.3 Wait a couple of seconds to see your Samsung device info. You can copy or save the info. The unlocking eligibility will be also displayed so you can use our services to unlock it. No competing IMEI checking service offers so many options for free. Our Samsung IMEI carrier check tool is user-friendly, and you can use it to look up info for any Samsung model in existence. No hard work is needed on your part. Just put the IMEI in the checker to get your info. You can find the IMEI number of your device in several ways, such as by dialing *#06# on your device. Alternatively, go to Settings > About Device > IMEI.We just need the IMEI to present you with all crucial information, including country, warranty, and network status. The service is ideal for those whove purchased or plan to buy a second hand Samsung soon. With this service, you can cross-check the information communicated to you by the seller. The information you see is derived from Samsumgs servers. Our site is connected with their official servers and all the information is downloaded from there. After checking the IMEI, you will know what network your Samsung device is on. Then you can order a relevant unlock service from our site.Samsung IMEI Check Sample Info:IMEI: 3540907915****Serial Number: R5CK30****Model Name: Samsung SM-G998UModel Number: SM-G998UZEATTCarrier: AT&T USAProduction Date: Mar 17, 2021Warranty: Active until Jun 17, 2022Device Age: 152 DaysAnd if your Samsung device is Google locked, we recommend you to check out or FRP Removal Service.
