He also changed from Blu to B & W to a point but there was no reason why and I didn't see any option how to change it manually. A little disappointing to find out how limited it is before you are asked to pay. All in all, this is a wonderful thing about fun and I don't mind paying. I would just like it to be lighter in detail and even more about the instructions. The tutorial is missing. Simply and elegantly fantastic! Of Salamander Sal (pcmac user) in love with this game! I couldn't understand what to do at the beginning but after seeing the tutorial that was quite fast, I understand what to do. I am addicted. It's like a digital puzzle but the pieces are already on the 3-sized scoreboard and you have to move it around 3 sizes until all the pieces fit together. A thus brilliant idea for a game. Stimulate the mind but not excessively complicated, so it prevents you and motivated at the same time. You don't have to be a nerd to play a mental game here. It's a visual game, I am a very visually oriented student, so I love him. Beautiful music, great casual game Music is really beautiful, and adds an atmosphere of nostalgia or serenity while you are looking for a challenging puzzle game, this is not true. However, it's a great game to spend time or when you want to play games not for the challenge, but well, for fun. I still have to try the level editor, but everything else seems to promising. :) Fun in blocks Yes, the puzzle is more than throwing the model around and rotating. (If you lose yourself, you are looking for as big ones, go to the "back".) Don't buy it if you're looking for a challenge. Buy it because watching images come out and become one thing is fantastic every time. This concerns a dozen times more true with your photos. The bummer is that simplicity becomes a little After a few minutes" many many times. times. times.
