Docs and Sheets—tools to help you do more in your...[Read more](#)[HelloFax](#)We're fans of [HelloFax](#) because it's the easiest way for most of us to send the occasional fax. The Google Docs add-on makes that process even easier. Just click on [HelloFax](#) in your Add-Ons, enter the fax number you want to send the document to, and you're done. If faxing isn't your thing, the same company also has [HelloSign](#) for those times when you need to sign an important document in Google Docs. Every once in a while you come across an organization who just will not accept an email and...[Read more](#)[Mapping Sheets](#)[Mapping Sheets](#) is an easy way to make custom Google Maps using Google Sheets. If you have a Google Sheet filled with names and addresses, you can instantly create a Google Map from it. This means you can create a giant map with all your contacts or easily plot out a vacation plan. Really, you can plot out pretty much any data you want and it only takes a couple of seconds. [EasyBib](#)[Creating bibliographies](#) is one of the most tedious and boring parts of writing a paper in college, but [EasyBib](#) makes that process a bit better. Enter in a URL or title into [EasyBib](#) and it automatically generates a bibliography entry in MLA, APA, or Chicago style. If you're typing your research papers in Google Docs, this is incredibly helpful. Speaking of adding Word functionality to Google Docs, [Table of Contents](#) is also worth a look for anyone writing massive research papers. [UberConference](#)[UberConference](#) adds audio conference calls to your Google Doc. All you do is load up [UberConference](#), invite your participants, and then everyone will be in the document and on the conference call within seconds. It works surprisingly well, and setup is simple since you don't ever need to leave Google Docs to use [UberConference](#). [MindMeister](#)[We love mind maps](#) and [Mindmeister](#) makes them easily with Google Docs. Create a bulleted list of items, turn [MindMeister](#) on, and then it creates a mind map for your list. It's not nearly as satisfying as creating a mind map on a piece of paper, but it works well enough for digital. [Mind mapping](#) is one of the best ways to capture your thoughts and bring them to life in visual...[Read more](#)[Track Changes](#)[Tracking changes](#) is one of Microsoft Word's best tools and it was always a bummer that it didn't work the same way in Google Docs. [Track Changes](#) is an add-on that makes Google Docs work basically the same way as MS Word. [Make Your Own Add-Ons](#)[The great thing about all these add-ons](#) is how anyone can make one. You just need to know a little about HTML. If you want to give it a try, [Digital Inspiration](#) has a great starter guide to get you going. Considering these add-ons were just announced, we're sure plenty more great additions will pop up in the coming weeks, but the above list is a good place to start. One word of note though: just like extensions, these add-ons require access to some of your data to work. When you install one, you're taken to the permissions page where you'll see what they get access to, so be careful of what you install. [Jamie McGuire](#) est née à Tulsa dans l'Oklahoma où elle grandit et étudie. Elle y obtient un diplôme de radiographie. D'abord autoédité, [Beautiful disaster](#) est rapidement devenu un best-seller mondial, lauréat du prix [BookExpo America](#) dans la catégorie Meilleure romance. Jamie est une des pionnières du New Adult, récompensée à de multiples reprises pour ses romans sur les frères Maddox. Elle est première au classement des best-sellers du New York Times à plusieurs reprises pour les ouvrages de cette série. Elle est également l'auteure d'un thriller apocalyptique, [Red Hill](#), qui recut le prix [UtopYA 2014](#) pour la meilleure dystopie. Elle vit aujourd'hui à [Steamboat Springs](#) dans le Colorado avec son mari Jeff et leurs trois enfants. A New York Times and USA TODAY bestseller about a good girl dangerously drawn to the ultimate bad boy. The new [Abby Abernathy](#) is a good girl. She doesn't drink or swear, and she has the appropriate number of cardigans in her wardrobe. Abby believes she has enough distance from the darkness of her past, but when she arrives at college with her best friend, her path to a new beginning is quickly challenged by Eastern University's [Walking One-Night Stand](#). Travis Maddox, lean, cut, and covered in tattoos, is exactly what Abby wants—and needs—to avoid. He spends his nights winning money in a floating fight ring, and his days as the ultimate college campus charmer. Intrigued by Abby's resistance to his appeal, Travis tricks her into his daily life with a simple bet. If he loses, he must remain abstinent for a month. If Abby loses, she must live in Travis's apartment for the same amount of time. Either way, Travis has no idea that he has met his match.
