There isn’t a single player who knows this better than people who play Person games. Shin Megami Tensei had a hint of genius or a hint of cruelty when he decided that some characters in Person 3, 4 and 5 could be romanticized, leaving the choice to the player who chose. If not all of them. When it comes to being an in-game harem or a protagonist with a heart, the choice is ours. So, who’s the best girl? We went online to do some research on true love, including some honorable mentions from the female protagonist path in Persona 3 Portable. Updated on July 23, 2021 by Adriano Valente: After laying the groundwork for the overall success of the series in 2006, Persona 3 has become one of the fan favorites. The game isn’t flawless, and that’s one of the reasons why some would like Atlus to announce a remake in the near future. But Persona 3’s romantic options still stand out as one of its many strengths. Persona 3, FES & Portable offer players a wide range of amorous interests to pursue, each with its own stories and circumstances. Everyone has their own personal favorites, and every social link offers something unique and interesting. 13 Mitsuru Kirijo Arcana: Empress Social Link Begins: November 21st Starting (Max Academics, Get Highest Score on an Exam) Unlocks: Ailhat (84) Everyone loves Mitsuru. If she did not get into the actual game PersonĀ”, then she probably got with her awesome dance attire in rhythm games to follow. She is one of the first important characters the protagonist interacts with, and her leadership, devotion and Empress Arcana skills make her an obvious choice when it comes to romance. Even though the top grades are the price to pay to have a chance with her, it’s worth it and probably one of the most popular social ranks in the game. 12 Yukari Takeba Arcana: Lovers Social Link Begins: 24 July Forward Unlocks: Cybele (68) He is sweet, innocent and adorable, and is also the first person to enter the main character. in contact with inĀ Person 3. Yukari is in charge of the Lover’s Arcanes, not unlike Ann in Person 5. With much the same atmosphere, the protagonist has the opportunity to maximize her social bond which will require players to maximize their Charm stats. Understandably, these things go hand in hand... 11 Fuuka Yamagishi Arcana: Priestess Social Link Begins: June 15 (Portable), June 19 (FES) Unblocks: Scathach (64) Fuuka is an interesting character. Not only the design is the most visually intriguing, but its romantic route is a bit of a fun one. Fuuka requires a full Max-out Stat Courage, mainly mainly mainlyThe real challenge lies in the protag who had to eat his kitchen. This is not a skill that is great and this, interesting enough, reflects a method to maximize “Guts” in person 5 by completing the Big Bang Burger Challenge. What is it with these games and I need the courage to eat huge amounts of food? 10 YukoĀ Nishiwaki Arcana: Strength Social Link Start: ask her to walk home twice after joining a sports club unlock: Siegfried (55) Where sports are interested, Yuko is the Top-Star athlete. Where strength is concerned, Yuko is also your girlfriend. It is responsible for the Arcana force which is, surprisingly, not so difficult to max. Without prerequisites in advance, players will find it easy to get a social connection with Yuko and from there they will have the opportunity to proceed as a romantic interest. Regardless of this fact, at most its social connection is extremely useful in the game. 9 Chihiro Fushimi Arcana: Justice Social Link Start: May 28 (must be spoken with 3 times before) unblocking: Melchizedek (59) What can you say about Chihiro? While she is pretty like her, she is incredibly socially awkward around the guys and becomes agitated and nervous. His social connection, while not as important as the others, is quite easy to maximize. Since he is the Treasurer of the Student Council, it makes sense that the player would have to pass a round of questions before he had full access to his social link. After providing three correct answers, it is then available throughout the entire game with no additional limits. 8 Aegis Arcana: Chariot (Person), Aeon (P3P, FES) Start Start Start Start: January 8th onwards Unlock: Metatron (87) While it is true that Aegis is not technically considered part of the romantic ring that the character series is known for, its route ends romantically. As confused as she is, it is her robotic origin that keeps her from feeling jealous when the protag is positioned with another female character. Also, some social connection characters don’t react at all when they feel they have time to spend time with Aegis, for the same reason. Regardless, it’s hard to disguise her social connection because it seems quite late in the game, but the story still indicates romantic feelings. 7 Elizabeth Arcana: N/A Social Link Start: Accept requests for Velvet rooms Unblocks: KartiKeya (70) Elizabeth plays an important role in the player’s journey throughout Person 3, serving as the Velvet room’s main assistant. It is also a romantic option for male MC, although it is worth noting that it is not technically a social connection. Players can progress through its history by completing the myriad of requests it has at its disposal. Completing each gives the player a certain reward. The completion of Elizabeth’s final appointment request, available December 12 in-game, allows the player to melt Kartikeya. 6 Female Protag: RyojiĀ Mochizuki Arcana: Fortune Social Link Start: November 9th onwards Unlock: Norn (62) AAĀ Person 3 laptops, players received the opportunity to choose the path of a female protag. This opened up an entirely new world, including the option for romance male characters. One of those characters is Ryoji, whose story ends in tragedy, no matter which route the player takes. That said, its plot is one of the most emotional, earning it a place at the top of our list. Despite this, the player has just under two months in play by alluding to his social connection as much as possible. 5 Bebe Arcana: Temperature Social Link Start: May 29 (academics 2 or later) Unlocks: Byakko (56), Yurlunger (64) The BEBE social link is accessible from both male and female MCS. While it is not Technically a romantic option for not even, the end of its connection in the path of the MC female reveals an uncommon passion in the MC male. Once the player completes Bebe’s social connection, he returns to France due to family circumstances. At the end of the social connection of the female MC, she will receive a letter from Bebe, Bebe,her feelings for her. So while romance is not prosecuted in-game, it is still written in the link. 4 Akihiko Sanada Arcana: Emperor (Person 3, FES), Star (P3P) Social Link Start: 24 May (Charm 4 or higher) Unlock: Helen (88) Akihiko is a bit of a challenge, just because her social connection requires a higher level of charm and correct responses during her dialogues. It represents the Arcana Star, so players might find it worthy to level it as much as possible. Whether or not to engage in romance with Akihiko is another story, as her social rank must be at a level nine, at least, to do so. 3 Shinjiro Aragaki Arcana: Hieroophant (Person 3, FES), Moon (P3P) Start Start Start: 7 September onwards Unlocks: Sandalphon (74) The women’s Protag route is full of challenges, consisting mostly of almost unrealistic time frames. While you can maximize Shinjiro and get to its romantic link, the player must do so within the three days that it is available, in a duration of about a month. His Arcana is the moon, which also shows worthy. In fact, every Arcana that male characters are associated with ANTRANCIPALISSE 3 laptops are pretty valuable, so time management is key. 2 Ken Amada Arcana: Justice (P3P) Social Link Start: 1 September (Max Courage) Unlock: Melchisedek (59) Ken plays an important role in the original character 3, but his character is greatly enhanced in laptop. A Ken receives a social link in the female MC route, occupying the arcane link of justice instead of Chihiro. As most of the male sees members, Ken is a romance option possible in laptop. Ken’s social connection really provides some much-needed insight into his past and how it affected him will enter the events of the game. 1 Theo Arcana: N/A Start-link Start: Accept Room requests Velvet Unlockings: Kartikeya (70) The opposite character of Theo would be Elizabeth, who is also canceled to romantically in person 3. The reality of Theo’s social link is that, similar to Elizabeth, it requires side missions completed in order for the relationship between him and the protag to improve. Completing his requests, the protag will start closer to Theo. This seems a bit strange considering largely, most of the games of the person who came before did not allow so much independent interaction between the characters of the velvet room and the protag, at least not for one point to be this personal.
