Chase the Skies drops Minecraft 1.21.6 version, featuring Happy Ghast and Ghastling mobs. The Withered Ghast block can be used to summon a Happy Ghast, which can then be ridden using a harness. A new players' position finder is also available in multiplayer mode, providing a HUD element that displays nearby players as small dots. Additionally, the game has introduced new achievements, tracks, dialog display options, and several other updates.Looking forward to seeing everyone at the meeting tomorrow and discussing our strategies.TLauncher 2.72 has been released, focusing on improving stability. We always recommend using the current version, as bugs may have already been fixed in the latest update, which can cause inconvenience if you're still using an older version.Changes in TL 2.72 include:1) The issue with missing achievements from Minecraft is now resolved.2) A rare SSL-related error when launching the launcher has been fixed.3) Improvements have been made to prevent memory-related game crashes.Version 2.72 is available for all users. To update, agree to the update when you launch your current version or download the links.WindowsLinux/macOS Play with standard skins, which are often boring and uninteresting. Consider installing a custom skin, as described in this how-to guide, which won't take more than five minutes and will last for a long time.Note: If your skins don't work on versions without TL icons or do on other versions, you may need to wait for the TL icons for those versions.Registration is necessary to use login details in the launcher. Go to the registration page, enter the required data, and create an account.Once registered, go to the "Accounts" section next to "Logout." Click on it, select your username, open the list, click "Manage," then proceed to the login page. Enter your registered username, email address, and password, and save the changes.If authorization is successful, you'll see your username with an TL icon on the main page of the launcher. Select a version with the TL icon (indicating support for skins) and run it. Your game will load with your custom skin.Conflict resolution:- To avoid crashes caused by mods, use the "creating backups for worlds" option, which is implemented by default.- This feature saves world files before running a new assembly, allowing you to quickly restore them without issues.Contents:1) Backup settings in TLauncher 2) Where are the world backups?3) How to restore a game world from a backup4) How to restore a game world from a mod pack backupNew features and changes are waiting for you in Minecraft: Java Edition 1.21.5, also known as Spring to Life, which is available from March 25, 2025. This update brings many new content such as new textures for pigs, hens, sheep, and cows, whose appearance will change depending on the biome they are in.##ARTICLEChiseled copper, stonecutter or crafting table items to craft Chiseled copper, crafting methods to get copper bulb, copper door, copper grate and copper trapdoor, Crafter details, heavy core details, tuff bricks, tuff slab details, vault details, ominous trial spawner details, ominous trial key details.the ominous trial spawner has arrived, bringing a set of new drinks with different statuses: Potion of infestation brewed from a stone block and an awkward potion; Potion of oozing brewed from a slime block and an awkward potion; Potion of weaving brewed from a cobweb and an awkward potion; Potion of wind charging brewed from a breeze rod and an awkward potion. Pottery sherds are a decorative item obtained from decorated pots in the Trial Chambers three varieties are available. Smithing templates include Bolt Armor Trim and Flow Armor Trim can be found in newly added vaults. Eggs new eggs for spawning the bogged and breeze have been added. The Trial Explorer Map is a map for finding the Trial Chambers it can be obtained from the Journeyman Cartographer; The trial key can open a regular vault by destroying a standard trial spawner. The wind charge is a new projectile crafted from breeze rods with a strong impact that throws players up and grants 10% more knockback than a regular breeze attack but has a much smaller impact area.new mobs to fight and enjoy the battle bogged is a new type of skeleton affected by fused mushrooms it has slower attacks it lives in mangroves and swamps it is rare compared to other mobs it drops poisonous arrows and mushrooms as loot. Breeze is an aggressive elemental mob that uses wind charges as an attack it appears only in the Trial Chambers it can interact with objects using wind it can deflect projectiles it drops breeze rods as loot.new entities the update adds Wind Charge as a game element it can interact with surrounding elements when used it explodes on impact releasing a powerful stream of particles. The generation includes a new location the Trial Chambers this structure appears in the Overworld where players can find many new items and take on combat challenges. The procedural generation creates a random structure that can include traps riddles and other exciting elements.the update simplifies the mechanism for placing a double door made of different materials the piston sound volume has been lowered blocks frozen by Frost Walker can emit Block-Placed vibrations when you hold an axe and a shield and use the Activate command the game wont select the axe strike by default instead the character will raise the shield. The Snout banner pattern has received a new rarity type. The trident has received a new rarity type giving its hover text a purple color. The panic behavior of animals after receiving damage will last two seconds.new features witches will drop up to 8 units of Redstone dust you can keep boats on a leash. You can carry charged explosives through the Nether portal after activating the explosion they wont destroy the main structural elements of the portal. When you reuse the portal and break blocks it will drop the needed elements and resources.bug fixes and corrects 221 defects including fixing entities with passengers no longer passing through portals.
