Dictionnaire des sciences occultes

Ask publishers to restore access to over half a million books that cover occultism, paranormal phenomena, and related characters and events. This comprehensive dictionary references pagan gods and demons, as well as notable figures in these fields. Scholars have deemed this work culturally significant, considering it an essential part of the knowledge base of civilization. In the United States, this book is in the public domain, allowing for free copying and distribution since no entity has copyright claims on its contents. Scholars believe that preserving and making this information accessible to the public is crucial, and we appreciate your support in keeping this knowledge alive and relevant. "Collin de Plancy's 'Dictionnaire infernal' published in 1818" is a reference to the fifth edition of the book, which is also discussed by G. Vicaire and R. Yve-Plessis in their works, including "Manuel de l'amateur de livres" and "Essai d'une bibliographie française ... de la sorcellerie et de la possession démoniaque".

Sciences occultes. Sciences occultes def. Dictionnaire pratique des sciences occultes. Dictionnaire sciences occultes et des idées superstitieuses. Dictionnaire des sciences occultes pdf. Dictionnaire de la magie et des sciences occultes pdf. Dictionnaire historique de la magie et des sciences occultes.
