The exposure these adverse conditions can cause incândio or© shock. Page 8ç Use only the roll cleaning paper to clean the rollers and the scanning water. If you need more information on the role of cleaning rolls, see the Material Security Data Sheet (MSDS) Please ask your Panasonic sales company about obtaining the Material Security Data Sheet. MANTER FALLEN FROM THE FIRE. Others are... Identification of the component Guide document Document Extension of the food tray Food tray Food tray Food tray Food tray Food tray Food tray Food tray LED (green) Port LED (ADF door (red) Security crease (for insurance cable) Sake tray Extension of the exit tray Open this door if a paper jam occurs. Configure the scanner and reassemble the food tray before using the scanner, follow the steps below to configure the food tray. Adjust document guides to the width of the paper A5 (l), and insert the food tray into the scanner as shown in the illustration. Scanner Configuration Configuration of the sake tray The sake tray prevents documents from falling after digitisation. Follow the steps below to set the health tray. Note: Documents can be fed through © is of the scanner, even if the exit tray is closed. Open the exit tray. Configuration of the sequence to turn on the scanner Turn on the scanner feed. Connect the power cable to the AC adapter. Connect the AC adapter to the scanner. Turn on the AC socket. Click the feed switch. Yeah. Control Sheet Others Warranty Information (USA, Only) to Reliable Throughput Imaging Viewer (RTIV) © an original Panasonic application software, and does not require either TWAIN driver or ISIS driver. OPINION PIE ® an acronym for Panasonic Image Enhancement Technology. Hello? ®... Software installation Full installation All controllers, applications, utilities and manuals can be installed at the same time using the installation Turn off the scanner power. Insert the CD-ROM into your CD/DVD player on your computer. If you have a feature called AnAutorunç enabled, it will automatically start the installation process. and manuals can be installed at the same time with the installation of all drivers &Utilities. Shut down power to the scanner. Insert the CD-ROM into your CD/DVD on your computer. If you have a character called 152Please Author Software Installation Custom Installation Each driver, utility and manual can be installed using the custom installation as required. Shut down power to the scanner (only when installing the Device Controller). Insert the CD-ROM into your CD/DVD on your computer. If you have a feature called 152Please Author visualisation manuals installed on your computer All manuals installed on your computer can be viewed as follows. Click on [Start], and click on [All Programs] [Panasonic] [Scanner Manuals]. For Windows 2000, click on [Program] instead of [All Programs]. Note: number of... Starting Scanner Applications automatically The scanner application can be configured to start automatically by pressing the Start/Stop button, and/or putting the documents on the feed tray. To achieve this, follow the steps below. Event Configuration Click on [Start], and click on [Control Panel]. Yeah. Page 19 If only one application is selected, this application will be launched automatically. For Windows 2000, the [Device Event: KV-S1025C] or [Device Event: the KV-S1020C window] will be displayed instead of the dialogue window [Choose Application]. Specifications of the administrative documents Dimension of the document: 48~216 m (1.89~8.5.) Paper thickness: 40~209m (11~55 lb.) The height of all documents on the tray must be less than 5 mm (0.2 on). It is compared to 50-leaf (80g/m or 20 lb) of new paper. Loading Documents when scanning several sheets will remove any staples from the document before scanning. Therefore, the cured documents as the document is © digitised can cause a paper or damage the document. When analyzing very important documents, confirm that the number of scanned images corresponds to the number of real pages. Page 22 22 Documents Carefully align documents. Documents feed better when the main edges are aligned flexibly, as shown in the illustration. Place the documents in the feed tray with the side to be scand face down. Place the documents as shown in the illustration. Cleaning the paper blocks If a paper gela@a occurs, Á priori@ A paper gela © has hidden the message with an error code (Uxx) Á© displayed on the User Utility screen. Remove the ingrown sheet according to the following instructions. The scanning glass section can be very hot. CAUTION When the cups are hot, donuÁsque not touch around them. Page 24 Clearing Paper Jamså If the document jammed into the leave area, pull it forward as shown in the illustration. Close the ADF door. Please push down on both sides of the ADF door gently until © it click so in place. Mixed batch cart guide No © to the document guide when using the mixed batch card guide. This mixed batch card guide prevents a skewing card while scanning mixed paper documents and a card simultaneously. Installing the Mixed Batch Card Guide Install the Mixed Batch Card Guide, as shown in the following illustration. Cleaning the Unit Outside the scanner Clean the unit at least once per hand. Turn off the power. Press the power switch. Unplug the scanner air conditioner. Power switch Clean the covers with a soft cloth. ÅçÅç... Cleaning the Unit The scanning glass section can be very hot. CAUTION When the glasses are hot, work after waiting to get cold without touching around the cups. Clean the rollers Follow the steps below to clean the rollers. Turn off the power. ÅçÅç... Page 28 Cleaning the Unit Use the Roller Cleaning Paper (KV-SS03) to remove dirt from the paper roll surface for feeding. When cleaning dirt in the roll surface, hold the roll to prevent it from turning, and wipe the roll of one end to the other (in the direction of the arrow) all the way around you, as shown in the NA Page 29 Cleaning the unit Use the roller cleaning paper to clean the surface of the transporter rollers and skim rollers. Á ç ç Clean the conveyor rollers and the output rollers from one end to the other (in the direction of the arrow) all around, as shown in the illustration. Cleaning the unit The scanning glass section may be very hot. Caution When the glasses are hot, work after waiting to get cold without touching the glasses. Cleaning the section of the scanning glass and reference area Disconnect the chain Á Á ç ç ... Consumer substitution The scanning glass section may be very hot. Caution When the glasses are hot, work after waiting to get cold without touching the glasses. If the double feed or paper often crashes even after cleaning the roller (see page 27), contact your dealer to order a "roller exchange kit (KV-SS035)", and replace the Double-feeding prevention roll, and paper feed ... Página 32 Consumer substitution Remove the feed prevention roller Double in the direction of the arrow shown in the illustration. Retrieve the new double-feeding roller of the optional roller exchange kit (KV-SS035). Install the new double-power prevention roller in the metal support with the longest slot facing the right side (rear view). Substitution of consumables replacement of paper feed roller. Open the paper feed roller cover (green) in the arrow direction shown in the illustration. Remove the paper feed roll. Remove the new paper feed roller into the "Roller Exchange Kit (KV- SS035)" optional. Página 34 Consumer substitution Firmly close the paper feed roller (green). Á ç å ç ç Make sure that both sides of the paper feed roll cover (green) block in place. Á ç ç After installing the paper feed roll, that the paper feed roll can rotate in the food direction. Support removal The scanner can be used without support, depending on the operating conditions. Follow the steps below to remove support from the scanner. Scanner. The Stand Stand Place the scanner in a uniform surface, as shown in the illustration, and then loosen the two screws in the anti-hatching direction. Repassing instructions is highly recommended that you keep the original packaging and all packaging materials. If you need to carry or send your scanner, please follow these instructions. Note: Please use the original packaging and all original packaging materials. Á ç ç å ç ç ...
