According to Star Wars lore, a padawan, or Jedi apprentice, is a trainee who is apprenticed to a Jedi knight or master. Padawan's training is completed, he must pass the Trials to become a Jedi knight. Padawan means "learner" in Sanskrit. The term made its first appearance in
"Star Wars: Episode I: The Phantom Menace," with Obi-Wan Kenobi as the padawan to Master Qui-Gon Jinn. they passed their Trials and became Jedi Knights. Padawans wore typical Jedi robes. In the Star Wars universe, some individuals are more sensitive to the Force than others. Force-sensitive individuals can be identified by the number of midi-chlorians in their blood and by certain talents such as faster reflexes (caused by an ability to foresee the
immediate future). Jedi younglings are selected on the basis of their midi-chlorian levels and talents; not all younglings, however, become padawans. In the early history of the Jedi, Jedi masters could teach more than one apprentice at once. After the Jedi Order became more unified and centralized, around 4,000 BBY, the High Council established
rules for training apprentices, who became known as padawans. A Jedi master could not take more than one padawan at a time, and potential padawans had to be under a certain age to be trained. At that time, the annual Apprentice of Coruscant, which was an opportunity for the Force to direct the choice of
a padawan by a master. The rules and structure of Jedi training became even stricter and more centralized after the Battle of Ruusan, around 1,000 BBY. The Jedi Order began to seek out infants with Force potential and raise them in the Jedi Temple, cut off from family and other emotional attachments. These younglings were trained in the basic
tenets of the Force and had to pass the Initiate Trials to get chosen as padawans. Some were not chosen and instead joined the Jedi Service Corps. Padawans typically wore single braids (or equivalent jewelry, for species without hair) to identify themselves as apprentices. They trained with their masters for about a decadeand were expected to obey
their masters in everything as they learned and grew in the Force. They could still take courses at the Temple as they desired if their master was agreeable. During their apprenticeship, padawans learned to use the Force as a sense. They also studied how to construct a lightsaber and traveled to Ilum to enter a trance and build their lightsabers,
which became one of their few possessions as Jedis. If they passed the Jedi Trials, they became Jedi Mights. Generally, training an apprentice to knighthood was a requirement for becoming a Jedi master. When Luke Skywalker re-established the Jedi Order after the Jedi Purge, there were not fully enough trained Jedi for the master-padawan systems as Jedis and Indiana.
Instead, Luke set up a Jedi Academy and trained many students, much like the Jedi of old. One-on-one apprenticeships existedbut were generally informal and impermanent. Later on, Luke's son Ben began to restore some of the padawan traditions to the New Jedi Order, such as the padawan braid. "Yes! A Jedi's strength flows from the Force. But
beware of the dark side."Yoda[1] Force-sensitive beings were brought to the Jedi Temple on Coruscant, where they learned the ways of the Force in the Jedi Order. Under the Galactic Republic, Force-sensitive beings were brought to the Jedi

With the fall of the Jedi Order during Order 66, Jedi training was an all but forgotten art, although it ultimately endured through the few survivors that escaped the Great Jedi Purge. After the destruction of the Sith, Luke Skywalker attempted to restore the Jedi Order by training a new generation of Jedi. Although his
plans were ruined by Ben Solo's fall to the dark side of the Force, Skywalker passed his knowledge on to a final apprentice, a scavenger from Jakku known as Rey. the rank of Jedi Knight were tasked with mentoring the next generation of Jedi, while the elder members, known as Jedi Masters, were also free to select a Padawan could undertake the Jedi Trials[19] once deemed ready by the Jedi High

The Jedi that the Empire captured to a handful of survivors and fugitives hiding from the newly risen Galactic Empire. The Jedi that the Empire captured were subjected to torture and indoctrination, causing them to fall to the dark side and become members of
the Inquisitorius. However, a few Jedi managed to survive the Great Jedi Purge, such as Cal Kestis, who served as the Padawan of Jedi General Jaro Tapal during the Clone Wars. After befriending another former Jedi, Cere Junda, Kestis set out to rebuild his Order by finding Force-sensitive children whom he could train as the next generation of Jedi.
However, due to the threat that the Empire posed to their safety, Kestis ultimately abandoned this mission, believing the children's destinies should be trusted to the Force. But over the course of his journey, Kestis was able to relearn the Jedi arts and complete his training, by which time he was knighted by Junda, who also reconnected with her Jedi
heritage.[3]Kanan Jarrus, another former Padawan who survived Order 66, found his own student: Ezra Bridger, an orphan whose latent Force-sensitivity made him a candidate for Jedi training.[22] Despite his initial attempts to train Bridger, Jarrus did not feel suitable as a mentor, having never completed his own training. He set out to rescue Jedi
Master Luminara Unduli after discovering that she might have survived the Purge, believing she would be a better teacher for Bridger. Ultimately, the rumor was a trap to lure fugitive Jedi to the Grand Inquisitor.[23] Jarrus redoubled his efforts to properly train Bridger, but at one point his apprentice demonstrated potential with the dark side.
Concerned by Bridger's ability to harness the dark side, Jarrus warned him to not lose control of his emotions. like his father before him. He was initially trained by Anakin Skywalker's former Master, Obi-Wan Kenobi, who taught Luke how to sense the Force through his feelings. However, their time together as Master and apprentice was cut short by Kenobi's death at the hands of the Sith Lord Darth Vader, [21] forcing the young Skywalker to continue his
Jedi training alone. After communing with the Force spirit of Kenobi, Skywalker traveled to Dagobah, where he discovered Yoda, the ancient Grand Master of the Jedi Order.[1] But Yoda was initially discouraged by Skywalker's attitude, seeing much of Anakin's impatience and anger in Luke. After some consideration and Kenobi's endorsement, Yoda
chose to overlook Skywalker's age as well as his penchant for adventure and excitement in order to complete his training.[8]Skywalker and Yoda were often at odds throughout their time together, with the latter trying to teach his apprentice to be calm and in control of his developing Jedi abilities. Yet Skywalker remained reckless, cutting short his
training to confront Darth Vader. As a result, he suffered an agonizing defeat in battle against the Dark Lord of the Sith, who revealed his former identity as the boy's father, Anakin Skywalker. By the time Luke returned to Dagobah to finish his Jedi training, Yoda had become ill and was on the verge of becoming one with the Force. Yoda told
Skywalker that, while he required no further formal training, he had to confront his father one last time in order to finally become a true Jedi.[8] Skywalker not only passed his final test, but also inspired Vader to turn away from the dark side, destroying the Sith and fulfilling his destiny as the Chosen One.[25]Revival[]"Although I had been able to

few survivors that escaped the Great Jedi Purge. After the destruction of the Sith, Luke Skywalker attempted to restore the Jedi Order by training a new generation of Jedi. Although his plans were ruined by Ben Solo's fall to the dark side of the Force, Skywalker passed his knowledge on to a final apprentice, a scavenger from Jakku known as Rey.

Masters' styles ranged from the maverick Qui-Gon Jinn,[4] to the emotionally driven Anakin Skywalker,[5] to more traditional Jedi such as Obi-Wan Kenobi,[6] Mace Windu,[7] and Grand Master Yoda.[8] Subjects taught included advanced tuition in other disciplies
such as: military history,[9] diplomacy, science,[10] investigation,[11] and medical science,[13] Dueling was widely considered to be the best training for Padawans, although it was fairly impractical since Jedi were the only ones wielding lightsabers during the Republic.[12]They were also trained in resistance to mind probes and
interrogation.[14]During the Clone Wars, Padawans were given additional training to make competent commanders of the Republic military under a Jedi General due to the Galactic Republic's lack of military leaders.[15]Overall, every Jedi was duty-bound to observe the tenets of the Jedi Code, one of which forbade the Jedi from training more than

Master of the Jedi Order, Yoda personally oversaw the younglings' training in the Jedi Temple on Coruscant. During the reign of the Galactic Republic, Force-sensitive beings were identified by their midi-chlorian levels and ultimately taken to the Core World Coruscant to begin their training in the Jedi Temple. [16] Training began at the level of the
Jedi younglings, who studied in clans consisting of twenty initiates. Together, the younglings were taken to the distant world of Ilum where they could acquire a kyber crystal as its power source.[18]Following the Initiate Trials, a
youngling had to be chosen as an apprentice, formally known as Padawan, in order to advance to the next stage in their path to becoming a full member of the Jedi Order.[19] Those who held the rank of Jedi Masters, were also free to select a
Padawan at their leisure.[20] After further honing their skills in lightsaber combat and various Force techniques, a Padawan could undertake the Jedi Trials[19] once deemed ready by the Jedi High Council. For those who passed their final tests, the title of Jedi Knight was conferred upon them by the Council.[16]Dark times[]"There's nothing for me

"Luke Skywalker, to Obi-Wan Kenobi[21] The training of Luke Skywalker represented a new hope for the Jedi Order, which was all but destroyed by the Galactic Empire. In the aftermath of Order 66, the Jedi Order was all but extinct, reduced to a handful of survivors
and fugitives hiding from the newly risen Galactic Empire. The Jedi that the Empire captured were subjected to torture and indoctrination, causing them to fall to the dark side and become members of the Inquisitorius. However, a few Jedi managed to survive the Great Jedi Purge, such as Cal Kestis, who served as the Padawan of Jedi General Jaro
Tapal during the Clone Wars. After befriending another former Jedi, Cere Junda, Kestis set out to rebuild his Order by finding Force-sensitive children whom he could train as the next generation of Jedi. However, due to the threat that the Empire posed to their safety, Kestis ultimately abandoned this mission, believing the children's destinies should
be trusted to the Force. But over the course of his journey, Kestis was able to relearn the Jedi arts and complete his training, by which time he was knighted by Junda, who also reconnected with her Jedi arts and complete his training, by which time he was knighted by Junda, who also reconnected with her Jedi arts and complete his force.

He set out to rescue Jedi Master Luminara Unduli after discovering that she might have survived the Purge, believing she would be a better teacher for Bridger.
Ultimately, the rumor was a trap to lure fugitive Jedi to the Grand Inquisitor.[23] Jarrus redoubled his efforts to properly train Bridger, but at one point his apprentice demonstrated potential with the dark side. Grand Master of the Jedi Order.[1] But Yoda was initially discouraged by Skywalker's attitude, seeing much of Anakin's impatience and excitement in order to complete his training.[8] Skywalker and excitement in order to complete his training.
Yoda were often at odds throughout their time together, with the latter trying to teach his apprentice to be calm and in control of his developing Jedi abilities. Yet Skywalker remained reckless, cutting short his training to confront Darth Vader. As a result, he suffered an agonizing defeat in battle against the Dark Lord of the Sith, who revealed his
former identity as the boy's father, Anakin Skywalker. By the time Luke returned to Dagobah to finish his Jedi training, Yoda had become ill and was on the verge of becoming one with the Force. Yoda told Skywalker that, while he required no further formal training, he had to confront his father one last time in order to finally become a true Jedi.[8]
Skywalker not only passed his final test, but also inspired Vader to turn away from the dark side, destroying the Sith and fulfilling his destiny as the Chosen One.[25]Revival[]"Although I had been able to train with two of the greatest Jedi Masters who ever lived, my lessons were learned in unorthodox ways while in the heat of battle against the

training to protect her son, Ben Solo, from the death she had foreseen would come if she continued down that path.[28] Skywalker went onto train the former Jedi youngling Grogu on[29] the planet Ossus,[30] where he used ant droids to contruct a new Jedi school. Grogu soon left the temple to reunite with his guardian Din Djarin[29] and take up the
life of a Mandalorian.[31] Rey tests out her skills with a lightsaber as Luke Skywalker looks on. In addition to a dozen other students, Skywalker trained his nephew Ben in the Jedi arts[32] and the potential for limitless power.
[33] As Ben[30] and the other initial students[34] grew older, new younglings came into the temple's care, with individuals like Enyo and the now-Padawan Solo helping Skywalker in passing down the Order, and for a time he believed that he would not die
as the last Jedi.[32] However, Skywalker's plans fell to ruin due to the machinations of[33] the secretly still-alive Palpatine[35] and his puppet,[28] Supreme Leader Snoke, who converted Solo to the dark side, which resulted in the destruction of Skywalker's new generation of Jedi.[33]Rejecting his mandate to rebuild the Jedi Order, Skywalker
resolved to die in exile as the last of the Jedi, until he was located on Ahch-To by Rey, a scavenger from Jakku. Yet Skywalker had no intention of Jedi. Rey's persistence eventually wore Skywalker down, however. Condensing Jedi
training into three lessons, he agreed to teach Rey the ways of the Force. After Skywalker gave his life defending the Battle of Crait, [32] Rey resumed her training under Organa. The popularity of theStar Warsfranchise has had a massive impact on generations of fans, leaving many wishing that they too could wield a lightsaber, command the Force, and travel the galaxy like their favorite Jedi heroes. But what does it take to rise through the ranks of this ancient order of mystic space warriors?If asked, most Star
Wars enthusiasts can easily say that in the Jedi Order, younglings become Padawans. And from there the Padawans become Jedi Knights, and then move on to become Jedi ranks? What happens to Jedi trainees who don't pass
their tests? For those looking to explore the hierarchy among the quardians of peace and justice in the galaxy, here is a quide to help you navigate all of the ranks within the Jedi Order from youngling to the book Jedi vs. Sith: The

When looking for potential younglings to recruit, The Jedi Path: All the Jedi Path: Al
Manual for Students of the Forceexplains that at one time, young adults and adolescents were recruited as Jedi Younglings, but the Order found that these older recruits were already exposed to fear and other negative emotions that could push them to the dark side. As a result, Jedi Masters opted to recruit infants who were still innocent and
unaware of the darkness looming in the galaxy. Younglings don't train with a mentor one-on-one. Instead, they are separated into small groups called clans and train together within those clans. Once younglings have learned their basics, they must take a series of tests known as the Initiate Trials in order to progress to the next rank. Though the
Initiate Trials have changed over time, their ultimate goal is to test a youngling physically and mentally to determine their knowledge of the Jedi Code and ability to conquer the Dark Side. Jedi Knight, an individual is expected to uphold the peace of the galaxy and the ideals of the Jedi Code. According to The Jedi Path, the most common way to become a Jedi Knight is by passing trials as a Padawan, but an individual can also be granted the title by performing a heroic deed, as exemplified by Obi-Wan Kenobi assuming the rank after
defeating Darth Maul.At this point in the hierarchy, Jedi Knights still have much to learn about the Force, but they no longer carry out their missions alone, testing their self-discipline and upholding the principles of the Jedi Code on their own. previous ranks, Jedi Knights are split into various classes and Specializations. When people think of the Jedi, two things usually come to mind: the Force and lightsabers. In many cases, those who specialize in

There are many different ways for Jedi Consulars to use their talents within the Order. First among these are Jedi Seers, whose deep meditation allows them to connect to the Force and receive visions of the past
present, and future. For instance, the prophecy of the Chosen One long thought to apply to Anakin Skywalker was the product of visions received by Jedi Seers who recorded their findings in the Jedi Ambassadors and Jedi
Diplomats, serving as representatives in various government bodies and activist movements respectively. Other Consulars might become Jedi Lorekeepers, dedicated to maintaining, curating, and adding to the Jedi Knights known as
Guardians acted as the first line of defense for the galaxy. As explained in The JediPath, Guardians are divided into three main subclasses: Peacekeepers, Temple Security, and Starfighters. Peacekeepers act as galactic police, trained in crowd control and deescalation of threats. Jedi assigned to Temple Security protect the Jedi Temple on the planet
Coruscant. As their name implies, Starfighters serve as the pilots of the Jedi Order. Another title given to particularly gifted Jedi Guardians is that of Jedi Battlemaster may recruit several Jedi Masters who are approved by the High
Council to be additional lightsaber instructors. Through intense training, some Guardians come to specialize in fighting with weapons of a starship. These Jedi are awarded the title of Exotic Weapons Specialize in fighting with whips, flails, blasters, and even double-edged lightsabers. Jedi Sentinels
are the wild cards of the Order. While Guardians and Consulars focus on typical Jedi activities, Sentinels pursue training in disciplines that are available to non-force sensitive beings. In doing so, they add modern insight and skills to their ancient teachings, making them beneficial members of the Jedi Order. According to The Jedi Path, some of the
common pursuits for Jedi Sentinels include specializing in computer systems, manipulation of technology, and hacking into and disabling security mechanisms. Because of the uniqueness of a Sentinel's skill set, they are often the default choice for missions that do not seem particularly suited for either Guardians or Consulars. For example, Sentinels
do exceedingly well on missions that require stealth and infiltration. One particular group of Sentinels known as the Jedi Shadows serve as the Order's assassins and excel at sneaky, less combat-oriented tasks. their counterparts. Throughout the history of the galaxy, Sentinels were appointed as Jedi Watchmen, tasked with maintaining the prosperity of a particular region of the galaxy. If a Jedi has shown exemplary skill, demonstrated deep knowledge of the Force, and successfully trained an apprentice to become a Jedi Knight, they may be granted the title
of Jedi Master. Just as the title of Jedi Knight can be given to honor the actions of an individual, so too can the rank of Jedi Master, if the Jedi Master from a
Jedi Knight is that their exceptional achievements and experience make them uniquely qualified to teach the younger members of the Order, not just by example, but by sitting on one of the four Jedi Councils that govern the Order. Though becoming a Jedi Master is an
arduous task that very few accomplish, there are still those within the Jedi Order who outrank even the Masters. For example, Jedi Masters who distinguish themselves can sit on one of the four governing bodies of the Order, placing them above the rest. The four councils are known as the Council of First Knowledge, the Council of Reconciliation, the
Council of Reassignment, and the High Council of First Knowledge oversees the education of younger Jedi and the dissemination of materials from the Jedi Archives. This council is usually comprised of Consulars who became Lorekeepers. The Council of Reconciliation, meanwhile, deals in politics and diplomacy.
This council is also regularly filled with Consulars, as well as Jedi Diplomats and Jedi Ambassadors. The third council of Reassignment, which governs the Jedi Service Corps, dictating which body each initiate will be funneled into after they fail to advance on the path to Jedi Knighthood. These are all governed by the High Council. The
Complete Star Wars Encyclopedia further elaborates on the High Council's history. During the Clone Wars, the High Council was made up of five lifetime appointees, making for a total of 12 council members. The High Council oversees everything within the Order and is crucial to its
stability and success. According to The Complete Star Wars Encyclopedia, the highest ranking member within the High Council is given the title Master of the Order. This prestigious position is only obtained by those who have climbed the ranks within the High Council and demonstrated incredible skill and knowledge of the ways of the Jedi. In the
years leading up to the Clone Wars, the title of Master of the Order was held by Lifetime Appointee to the Jedi High Council Mace Windu. After the Clone Wars began, Master Windu decided to take a more active role in commanding troops on the battlefield, and insisted that the title be passed to Master Yoda. However, the novel Shatterpoint reveals
Windu's true motivation for giving up his position. Master Windu had been haunted by the feeling that he missed an opportunity to end the war before it began when he confronted Count Dooku on Geonosis, and he blamed himself for the devastation brought on by the outbreak of war. Because of this regret, Windu decided that he was not the right
person to lead the High Council any longer. Though Master of the Order is a prestigious position, they are still outranked by one final position: the Grand Master. The Jedi High Council must unanimously vote to bestow the
title onto them. The Jedi Pathelaborates on the role of Grand Master, stating that they often serve in conjunction with the Master of the Order, leading the Jedi High Council. In bygone eras, several Jedi Masters were given the title at once, but that practice was ended long before the time of the Clone Wars. One of the most critical roles held by the
Grand Master is to pass on their knowledge to the next generation of Jedi. Star Wars: The Visual Encyclopedia explains that the Grand Master trains younglings, thus helping to continue the cycle of teaching recruits in the ways of the Force. Two particularly notable figures have achieved the title of Grand Master. During the Clone Wars, Master Yoda
was recognized as the Grand Master of the Jedi Order. Afterward, in the Expanded Universe books, Luke Skywalker invokes the title of Grand Master as he rebuilds the Jedi Order following the fall of the Empire. was welcomed into the Jedi Order at the age of nine. Immediately upon his initiation into the Order, he was named the Padawan learner to the newly-Knighted Obi-Wan Kenobi. person-to-person.[15]History[]High Republic Era[]Days of light[]During the High Republic Era, a common training experience for Padawans was to be placed at a Jedi outpost alongside their master in the Outer Rim Territories, helping to uphold justice in the yet to be explored region. Nevertheless, they were sometimes given off-world assignments that took them away from the outpost.[16] Oliviah Zeveron was a human Padawan apprenticed to the compassionate Ugnaught Jedi Master Fitan, who was a strong believer in the teachings of Fin-So-Rowan and, thus, brought her Padawan with her across the galaxy on a mission to teach Jedi ways and Luminous practices. Zeveron loved the sense of adventure that came with their travels, over which they never seemed to stay still, experienced new worlds, and tried new foods. In time, Zeveron tried to act mature and hide her excitement, but Fitan was able to break through her Padawan's veneer of seriousness.[17]Jedi Master Leebon permitted his Padawan, Matthea Cathley, an unprecedented

level of independence for a Padawan. Listening to the Force, Cathley's training saw her studies consist of following the Force, leading to discoveries and misadventures that she was always happy to share with her master when she returned to their posting. Based on the Holy Moon of Jedha, Cathley called the Temple of the Kyber home because a proper Jedi temple did not exist on Jedha due to lingering anti-Jedi sentiment from the Order's past control over Jedha City. After those tensions exploded into the Battle of Jedha, Leebon lost her life to the Path of the Open Hand, so Jedi Master Vildar Mac took on Cathley as his Padawan so she could finish her training. By that time, Cathley's understanding of life as a Padawan had changed due to her experiences with Mac and their mutual friend Tey Sirrek, who both treated her as an entry-level Padawan who should only speak when higher-ranking Jedi deemed it necessary, during their mission to Dalna.[17]Nihil conflict[] Padawan Bell Zettifar was trained by Jedi Master Loden Greatstorm, were stationed at the Elphrona Outpost. When they were meant to be rotated back to the capital of Coruscant, Supreme Chancellor Lina Soh established a hyperspace blockade due to the Emergences, forcing the two Jedi to stay on Elphrona for some time. During the Nihil pirates' raid on Elphrona, Greatstorm was captured by the NihilZettifar refused to go through the Jedi Trials until he was rescued, wanting his mentor to attend the ceremony.[16] In the aftermath of the Battle of Grizal, during which the Eye of the Nihil Marchion Ro unleashed the Great Leveler, which turned Greatstorm to stone and left other Jedi Order in whatever way they could, just like the more experienced Knights and Jedi Masters. As such, a number of Padawans aboard the Starlight Beacon left to help defend the Jedi Temple of the planet Takodana from a Nihil lettack.[18]The stress of battles against the Nihil led to Masters Torban Buck and Kantam Sy re-establishing the "Great Jedi Rumble Race" for the Padawans of Starlight Beacon. [19] As the conflict carried on, Padawan Ram Jomaram found that masters were more willing to have their apprentices learn by "doing" and reasoned the previous generation of Jedi had not had the chance to take on as much duty as current Padawans needed to. "Obi-Wan Kenobi and Yoda[1] During the Clone Wars, the Jedi High Council began to assign Padawans to Jedi Knights, instead of allowing them to choose.[13] During the war, Padawans were trained in combat and forged into officers[21] of the Republic Military partly because of a lack of military leaders. Padawans held the rank of Jedi Commander and could lead forces of clone troopers as large as a regiment.[22] This led to cases where young and inexperienced Padawans, many of them still teenagers, outranked clone troopers with far more experience in combat. At the end of the conflict, in 19 BBY, Supreme Chancellor Sheev Palpatine, secretly the Sith Lord Darth Sidious, issued Clone Protocol 66,[23] forcing[24] the troopers to turn on their Jedi Generals and Commanders. [23] After the establishment of the Galactic Empire, a few ex-Padawans that had survived Order 66 or left the Jedi Order before the purge joined the nascent Rebel Alliance. [25] This was the case of Anakin Skywalker's former apprentice, Ahsoka Tano, [26] as well as Depa Billaba's former apprentice Caleb Dume, [27] who became known as Kanan Jarrus [28] and later took on a Padawan of his own, Ezra Bridger.[29] By 0 BBY, Luke Skywalker, the son of Anakin Skywalker, began training under Jedi Masters Obi-Wan Kenobi[30] and later Yoda.[31]Rebirth[]"Pass on what you have learned. "Yoda, to Luke Skywalker [32] Luke Skywalker frained Rey as his final Jedi apprentice. Sometime after the Battle of Endor in 4 ABY, which saw the deaths of both Emperor Palpatine and his apprentice Darth Vader, Skywalker attempted to rebuild the Jedi Order. However, his new generation of Jedi were killed by his nephew, Ben Solo, who fell to the First Jedi Temple on the Temple Island on the distant planet of Ahch-To.[34]In 34 ABY,[35] Rey,[32] a scavenger[34] from Jakku, arrived at the island to enlist him in the Resistance's fight against the First Order, and later became his apprentice. Despite his misgivings about the Jedi restored after a conversation with Yoda's Force spirit.[32] Following the Battle of Crait, General Leia Organa introduced Rey to Ambassador Yendor Brethen of Ryloth as Skywalker's apprentice, which greatly impressed Brethen. [36] By the time of the return of Darth Sidious, in 35 ABY, [37] Rey would eventually go on to redeem Ben Solo and defeat Darth Sidious once and for all.[38]Behind the scenes[]The term "Padawan" first written as "Padawan" first written Episode I The Phantom Menace, the first installment of the preguel trilogy.[1] In all previous works, including the original movies or early Star Wars: Episode VI Return of the Jedi, the Star Wars: Trials on Tatooine VR experience released by ILMxLAB featured an unidentified hopeful Padawan who hoped to become part of Luke Skywalker's new Jedi Order. In an ensuing mission to Tatooine, however, the Padawan found themself attacked by an Imperial remnant force. In the end, the Jedi would be victorious.[40]Appearances[]Non-canon appearances[]Non-canon sources[]Non-canon sources[]Non-canon sources[]Non-canon appearances[]Non-canon sources[]Non-canon appearances[]Non-canon appearances[]Non-canon sources[]Non-canon sources[]Non-canon sources[]Non-canon appearances[]Non-canon sources[]Non-canon sources[]Non-canon appearances[]Non-canon sources[]Non-canon appearances[]Non-canon appearances[references[] External links[] Quiz: Who Would You Take as an Apprentice? on StarWars.com (backup link) Everett CollectionWhen someone mentions the word "Jedi," images of Star Wars characters in monk-like robes who wield lightsabers probably come to mind.
