Microsoft makes ISO files available so that users can download and clean the installation / update windows without problems. Microsoft provides several ways to download and install the latest version of Windows. We will discuss some of the ways in detail in this 10 Setting Article.The Windows comes in the form of an ISO file. An ISO is a single file that contains all Windows 10 installation media. The ISO file can be burned to a USB drive or a DVD unit to make units bootable. You can also extract the contents of the ISO file and install Windows from extracted files. But this limits your capacity to clean to install the operating system. You will only be able to install the operating system without formatting the primary C Drive.There are two types of ISO files. One is the normal Windows 10 ISO file, which contains all Windows consumer level editions, including home, pro, etc. The second type of ISO is the Enterprise version of Windows. You can choose the Windows 10 ISO download according to your requirements.Now you can download and install Windows 10 ISO TOO.microsoft files from Windows 10 DownloadNow Let S discuss Windows Download Methods.Windows 10 Direct Download Linkswindows 10 Version 21H1 (Complete Changelog and review here) Å, Å, Download Windows 10 Version 21h1 ISO Å, Å, Download Windows 10 Version 21h1 ISO 32-bit English (3.8 GB, 24.813 Hits) Windows 10 Version 20H2 (Changelog Complete 64 Bit English (5.4 GB, 146,762 HITS) and the revision here) is, Å, Windows 10 version 20h2 64 bit English (5.7 GB, 114,956 hits) Å, Å, Windows 10 version 20h2 32 English bit (4.2 GB, 31.895 hits) Windows 10 Version 2004 (Complete Changelog and Review here) Å, Å, Download Windows 10 Version 2004 64-bit.iso (English) (4.9 GB, 454,244 hits) Å, Å, download Windows 10 version 2004 32-bit .iso (English) (3.5 GB, 54.318 Hits) of Windows 10 Version 1909 (Complete Changelog and revision Here) Å, Å, Windows 10 Version 1909 64-bit English (5.0 GB, 453.614 Hits) Å, Å, Win Dows 10 Version 1909 32-bit English (3.5 GB, 29,740 Hits) Download Windows 10 Using Update Assistantif YES He is already using Windows on your system, this is the easiest way to upgrade to the most recent version at this time. The update assistant does not download the ISO file for you, it will be The operating system to the most recent version automatically. It is necessary to have an active Internet connection until the update server completes the process.Follow the procedure described by updating your System.Download Windows Update Assistant operating from here 16 MB) Run the executable and click the update Now Button.The Button.The Check the compatibility of the latest version of Windows with the hardware. This should fit if you use a modern PC. Click the Next button to start the download. It will take the download download to complete and then the installation will be started automatically. The system may ask you to restart to proceed with the installation. .download Windows 10 using the Windows Media creation tool that you want to perform a new Windows 10 installation you can download the Windows 10 Windows Media creation tool. It will automatically download Windows and will create a bootable support as a USB or DVD for you. The media creation tool acts as a Windows 10 download tool more a bootable USB manufacturer. You can perform a clean installation and update your current installation. Follow the following steps: Download the Windows 10 multimedia creation tool from Qui.Windows 10 Version 1809 Media Creation Toolaccept The license agreement.Windows 10 Media Creation Tool License MEDIA INSTALLATION CHECKS (USB Flash Drive, DVD or ISO file) for Another PC. The first option for updating PCs will now do the same thing as Windows 10 Assistant update. Select the language, edition and architecture from the next screen. Select the language of the architecture and the Windows 10 edition Setupplect the installation media or if you are not connected USB Flash Drive or DVD, you can download the ISO file bootable.Choose Media Windows 10 SetupDownDownload Windows 10 ISO directly from Microsoft without mean Creation Tolyou can easily access any version of Windows 10 from this Microsoft download link. The problem with this link is that if you open the link on a Windows 10 PC, it automatically detects and force you first to download the media creation tool. The media creation tool can download the ISO but it is not a very pleasant experience. If you want to use a Download Manager, then you will need direct download links. You should discuss how to download Windows 10 ISO directly without media creation tool. This method is useful especially when you want to download the ISO in any other language of choice than English. Supported languages include the following: English (United States) English (United Kingdom) Chinese (simplified) Portuguese (Brazilian) GermanFrenchFrench (Canada) RussianJapaneseltItalyDutchspanishspanese (Latin America) PolishturbsWeeDishczcharabickoranchese (traditional) FinnishthinesetÅ € Å,~ Å "€ First understand the logic . The Microsoft media creation tool is only for Windows. If you open the same page using another device like Android, MacOS, etc., Microsoft will provide you with download links. We can deceive Microsoft to think that we are not using Windows. This can be done if we are using Google Chrome, Firefox or even Safari. We will only discuss how to do it in Chrome and Firefox only. For Chrome, follow the instructions below: Open Microsoft Windows 10 Download web page to Google Chrome.Press Ctrl + Shift + I To open the panelopen inspection panel Inspected in ChromePress The three vertical points icon in the upper corner Right of the inspection window. For more tools Å € Å,~ "> Network Conditions.Open Network Conditions User Agent, uncheck automatically select. The previous steps enable a drop-down list just below the check box. Select something other than Windows. For example, I chose Chrome os.Select User Agent in Chromewithout Panel Closure inspection, press the charging button or press F5. This will reopen the same Windows 10 download page but with a drop-down menu to select the ISO Windows edition that you Download. Show the Windows edition to download the Windows 10 edition to download (normally the top the last) and press the Confirm.next button, you need to select the product language. Choose which language you want to download the ISO inside and click the Confirm button. Select the product LanguagesYou will be supplied with two buttons on the next screen.64-bit Download 32-bit DownloadClick up to Connection and download will start immediately. Windows 10 Download Plusase connections Note that these download links will only be valid for 24 hours. So you need to complete the download process before the expiration time. If you use Firefox, you can use the Agent Agent Addon switch to change the User Agent. Product and InstallationYou can use the following product keys for installing and activating Windows 10: Windows 10 product activation keys All editionsyou could Burn the ISO file downloaded to a DVD or create a bootable USB unit to install Windows 10. If you want to update Windows 7 or Windows 8 / 8.1 to Windows 10, you need to mount the ISO file and configure from Windows Desktop. Here are some basic questions about users who turn here.
