This can increase your chances of getting a number with the desired area code. Getting a desired area code can be a bit of a challenge, but dont give up. Keep trying and refreshing the list of available numbers. It may take a few attempts, but eventually, you may be able to get the area code you want. If you are not located in the United States, you may have difficulty getting a US area code for your TextNow number. In this case, you can use a VPN to change your IP address to a US location. This can increase your chances of getting the area code you want for your TextNow number. Be patient and keep trying until you get the desired area code. Ive been trying to get a canadian number is no longer available. The list has been refreshed so that you can make another selection have tried all possible canadian codes to no avail. Im on IOS.Can you guys please suggest a remedy Reactions: yashanbrar live been trying to get a canadian number is no longer available. The list has been refreshed so that you can make another selection live tried all possible canadian codes...it shows an error this number is no longer available. to no avail. Im on IOS.Can you guys please suggest a remedy May be you need to switch the region in your phone settings. I have the same issue and am using android. I have tried everything including changing phones. Tried other apps. Nothing. I gave up. Ive been trying to get a canadian number thru textnow to get in touch with IRCC. However when i try to put a canadian code...it shows an error this number is no longer available. The list has been refreshed so that you can make another selection I have tried all possible canadian codes to no avail. Im on IOS.Can you guys please suggest a remedy In the suggested numbers page, enter any Canada area code for example enter 416, list will auto refresh and show available numbers. Keep trying with different area codes until you get a free number. I have the same issue and am using android. I have the same issue and am using android. I have the same issue and am using android. I have the same issue and am using android. I have the same issue and am using android. I have the same issue and am using android. I have the same issue and am using android. the same issue. I downloaded another app called TalkU but for this you need to pay \$5 for a Canadian number and \$5 for 200min package. Reactions:w P use 902 / 782 / 867 / 879 / 506 I was able to get one number eventually. It could be a fluke but what I did was I turned location tracking off, used an email id with a canadian address. Then tried a few codes and Voila! I was able to get one number eventually. It could be a fluke but what I did was I turned location tracking off, used an email id with a canadian address. Then tried a few codes and Voila! Can you explain in a bit detail. I have denied the app to use to my location. So after I manually enter area code it says-- There are no numbers to display at the moment .Try picking your area code again. I tried all area codes still same error. any solution to this, i am getting the same problem...tried everything suggested above.. I downloaded Talku app and I was able to get a Canadian number. what number should we call? have these 2 18882422100 or +19056125416can anyone confirm? After a number is released, just input your desired area code within the app and TextNow will assign a new one. Comments 0 like TextNow: Customizing Your Area Code for a Seamless Mobile Experience: the ability to select a specific area code. This isnt just a cosmetic change; it can offer practical benefits, from appearing as a local number in certain regions to simply providing a more personalized phone presence. Unlike traditional mobile carriers, where area codes are often assigned based on your physical location or service plan, TextNow empowers users with a degree of control. Their platform functions in a distinctive manner. After a number is released meaning the previous user no longer has that particularly appealing for several reasons. For individuals looking to establish a local presence in a new area without physically relocating, TextNows area code selection facilitates a seamless transition. Imagine starting a business in a new city; using a TextNow number with the local area code can enhance customer trust and perception. interact with contacts in specific regions can benefit from a number that better reflects their current activities. Its worth noting that while you can choose your desired area code, the actual available, the app will suggest alternatives. This flexibility ensures a smooth and practical experience, without being overly restrictive. While TextNows area code customization is a significant plus, users should still consider the potential implications of this feature. For certain industries, a non-local area code might raise questions about authenticity or professionalism. Ultimately, the decision to utilize this feature comes down to individual preferences and the specific needs of the users activities. In summary, TextNows ability to allow users to pick their own area code empowers users with a degree of control over their mobile presence. those seeking to align their phone numbers with their business, location, or personal preferences.#Areacode #Calling #Textnow Technology Can you pick your own area code on TextNow?
