Linezolid tablet

What is this medicine?

LINEZOLID is an antibiotic. It kills or stops the growth of some bacteria. This medicine is used to treat many kinds of bacterial infections of the blood, lungs, and skin. It will not work for colds, flu, or other viral infections.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- cancer
- heart disease
- high blood pressure
- kidney disease
- phenylketonuria
- pheochromocytoma
- untreated thyroid disease
- an unusual or allergic reaction to linezolid, other antibiotics or medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. Take your medicine at regular intervals. Do not take your medicine more often than directed. Take all of your medicine as directed even if you think you are better. Do not skip doses or stop your medicine early.

Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for children as young as newborn for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with
