Cialis Sublingual

Generic Cialis Sublingual - is new, rapid, convenient to use and highly effective drug for improving potency with a fast onset of efficiency and long duration. The pill is quickly dissolved under the tongue, each contains 20 mg of tadalafil. The mechanism of action of this drug significantly increases the speed of the onset of efficiency of the preparation and completely excludes the process of absorption by digestive system, so tadalafil quickly penetrates into a the blood stream and start working already in 20 minutes. This adds an advantage to combine the drug with high-calorie food and alcohol when you want that.

Active ingredient: Tadalafil

Brand(s):Tadalista Sublingual

Manufacturer: Centurion Laboratories Private Limited Disease(s):Erectile Dysfunction / Impotence
