Norvasc

Generic Norvasc is used for treating high blood pressure and angina (chest pain). Amlodipine is a calcium channel blocker. Valsartan is an angiotensin II receptor antagonist. Lowering blood pressure may lower your risk of a stroke or heart attack. Amlodipine and valsartan is usually given after other blood pressure medicines have been tried without success.

Active ingredient: [Amlodipine](#)

Brand(s):Amlip / Avacard

Manufacturer: Okasa Pharma Pvt. Ltd. / Ranbaxy Laboratories Ltd.

Disease(s):Hypertension / Angina
