Terbinafine tablet

What is this medicine?

TERBINAFINE is an antifungal drug. It is used to treat finger and toe nail infections caused by certain types of fungus.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- drink alcoholic beverages
- kidney disease
- liver disease
- an unusual or allergic reaction to terbinafine, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a full glass of water. You can take this medicine with food or on an empty stomach. Take your medicine at regular intervals. Do not take your medicine more often than directed. Do not skip doses or stop your medicine early even if you feel better. Do not stop taking except on your doctor's advice.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.
