## Zestoretic

Generic Zestoretic is used to treat hypertension (high blood pressure). Hydrochlorothiazide is a thiazide diuretic (water pill) that helps prevent your body from absorbing too much salt, which can cause fluid retention. Lisinopril lowers blood pressure and also relieves symptoms of fluid retention.

Active ingredient: [Lisinopril-hctz](#)

**Brand(s):** Listril Plus

**Manufacturer:** Torrent Pharmaceuticals Limited

**Disease(s):** Hypertension

## Lisinopril and Hydrochlorothiazide tablet

### What is this medicine?

LISINOPRIL; HYDROCHLOROTHIAZIDE is a combination of a diuretic and an ACE inhibitor. It is used to treat high blood pressure.

### What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- bone marrow disease
- decreased urine
- heart or blood vessel disease
- if you are on a special diet like a low salt diet
- immune system problems, like lupus
- kidney disease
- liver disease
- previous swelling of the tongue, face, or lips with difficulty breathing, difficulty swallowing, hoarseness, or tightening of the throat
- recent heart attack or stroke
- an unusual or allergic reaction to lisinopril, hydrochlorothiazide, sulfa drugs, other medicines, insect venom, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding
